My father was a Serbian Royal Guard Kapetan Branislav Z. Obrenovic POW in Hammelburg Oflag XIII B, I am sending this to find out more about my father whereabouts during this time, I have sent pictures I had from Hammelburg to Peter Domes.

If there is any relative or Serbian POW from Hammelburg, Biberach, Nuremberg or Offenburg that recall his name, please contact me at its\_ops@bellsouth.net or call me at 305-805-3120 my Office, Cell 786-295-3823, Home 305-858-8226.

Thanks to the Internet I have been able to contact a lot of people, I wished that my father was still alive, but he is resting now in a better place as the rest of the heroes of this War and many others.

I was able to find a good friend of my father Capt. Carl Helton that remembers my father, It was my father's dream to find him but the information prior to the Internet being established it was hard, for this reason on HIS MEMORY I will try to find as much as I can to finish his memories that were told to me as young teenager. He was my Heroe, friend, father and companion in life, I miss him very much.

God bless you all.

Sincerely

Aleksandar B.Obrenovic
